

Minkyong Kim

Ph.D. Candidate, Graduate School of Information, Yonsei University, Seoul, Korea
minky@yonsei.ac.kr | mfriendly.github.io | Google Scholar | github.com/mfriendly
ORCID 0009-0001-3530-0885

Research Interests

Time series forecasting; causal machine learning; decision-making under uncertainty; graph neural networks; large language models for time series. Applications in public health, energy, and economics.

Education

Yonsei University, Graduate School of Information

Seoul, Korea

Integrated M.S./Ph.D. in Information Systems (expected February 2028)

Sep. 2021 – Feb. 2028

- Advisor: Prof. Beakcheol Jang

University of Pennsylvania, College of Arts and Sciences

Philadelphia, PA, USA

B.A. in Economics

May 2015

Publications

- [1] Beyond similarity: Coverage-aware prompt selection for time series forecasting with LLMs

Teaching

Incheon Academy of Science & Arts

Instructor, Data Analysis in Everyday Life

Incheon, Korea

Spring 2025

Yonsei University, Graduate School of Information

Teaching Assistant, Artificial Intelligence and Bigdata Research (GSI7657)

Seoul, Korea

Fall 2026

Yonsei University, Graduate School of Information

Teaching Assistant, Machine Learning (GSI7700)

Seoul, Korea

Spring 2026

Yonsei University, Graduate School of Information

Teaching Assistant, Bigdata Analytics and Applications (GSI7656)

Seoul, Korea

Fall 2025

Yonsei University, Graduate School of Information

Teaching Assistant, Database Strategy and Practice (GSI6001)

Seoul, Korea

Spring 2025

Academic Service

Conference reviewer: NeurIPS 2026 (Evaluations and Datasets Track), AAAI 2026

Journal reviewer: Travel Medicine and Infectious Disease

Professional Experience

Pebbles Investment

Assistant Manager, venture and alternative investment review

Seoul, Korea

Jan. 2019 – Dec. 2019

Hyundai Investment

Assistant Manager, Product Strategy Department; fund strategy simulation

Seoul, Korea

Jan. 2016 – Jun. 2017

Korea Institute of Finance

Research Intern, financial market policy research

Seoul, Korea

Jun. 2012 – Aug. 2012

Certifications and Skills

Certifications: Financial Risk Manager (FRM)

Programming: Python, PyTorch, R

Languages: Korean (native), English (fluent)
